Prioritize traffic flow in your city
with LYT's family of smart city products

Value engineered to grow with you

LYT's smart city solutions are among the most cost effective in the industry. With easy installation, minimal maintenance, and automatic operation, we design affordable mobility solutions that you can roll out citywide.

About LYT

LYT create cloud-based software solutions that uses state-of-the-art connected vehicle and machine learning technologies to prioritize the flow of vehicles in a city. By optimizing public transport, emergency, and other vehicles, we enable shorter travel times, less congestion, improved air quality, and more reliable mass transit.
